How It Works

1

Request Care: DispatchHealth's services can be requested by calling 855-457-4973, using our mobile app or visiting our website at DispatchHealth.com. We are available 8 a.m. – 10 p.m., 7 days a week, including holidays. No pre-registration required!

2

Explain Your Symptoms: When you call, you will be asked to provide a few details about your illness or injury and other information like your primary care provider's name.

3

A Medical Team You Can Trust: Our medical team arrives at your home within a few hours after calling. Each team includes either a nurse practitioner or physician assistant, along with a medical technician. An on-call emergency medicine physician is always available by phone for consultations.

4

We Take Care of the Rest: We will call in any prescriptions you might need, update your doctor and work directly with your insurance to process billing.
